Reference for Becky Plourde

To Whom It May Concern:

As our live-in nanny, Becky Plourde has been an integral part of our family and a conscientious caregiver of our three children (ages 2, 4, and 6). We have gotten to know Becky well given the live-in nature of the position. She is kind, caring, punctual, and reliable. Her responsibilities included waking the children up in the morning, getting them dressed, feeding them breakfast, brushing teeth and getting them to school/daycare. During the day she would complete household tasks such as cooking, laundry, packing lunches, and general tidying. At the end of the day she would pick up the children and spend the afternoon playing with them until my husband and I returned home from work.

My husband and I have busy physician schedules that are not always predictable. Becky was always flexible and was able to seamlessly adjust to any changes. The children's grandparents also enjoy visiting and Becky was always able to be flexible with meal planning and afternoon activities.

Becky developed a close relationship with our children. She was always kind and able to redirect bad behavior. Becky is certainly capable of watching many children at once, perhaps from her earlier experiences working at a daycare. On several occasions, our children, along with many (if not all) of the children from our neighborhood, were playing in our yard under Becky's supervision.

From my first interview with Becky I knew that she was organized and always prepared. She ensured that household tasks were done early and to a high standard. She reminded me when we were out of household supplies and other essentials. She helped keep our household calm and together.

Please contact me with any specific questions. I would be more than happy to speak with you more about my experience with Becky.

Kind Regards,
